## Occasional Tables

---

---

### LOGICmeet Occasional Table Series Specifications

---

#### Veneers

Premium grade cherry and maple tops are plain sliced, slip matched. HBF Ligno-Grain veneer and Bamboo plywood panels provide an opportunity to specify environmentally friendly products. HBF Ligno-Grain veneer is a high-quality reconstituted wood veneer and Bamboo offers a renewable alternative to hardwood; both produce a textured surface that is not fully filled.

Wood veneer tops are bordered with a solid wood edge banding or a durable protective "T" edge detail may be selected for cherry, maple and HBF Ligno-Grain tops.

---

#### GREENGUARD®

This product has been GREENGUARD Indoor Air Quality Certified® when utilizing approved core and finishing materials. Please contact HBF Customer Relations for pricing and lead time information.

---

#### Protective Edge Detail

The durable soft protective "T" edge detail is limited to cherry, maple or HBF Ligno-Grain tops. This option must be noted on the order by adding the code "T" to the table style number (see bottom of each page).

These protective edge details are available in the following HBF standard colors and must be specified on order.

Ivory (T)  
Fog (T)  
Black (T)

# LOGICmeet Series

## Occasional Tables

### LOGICmeet Occasional Table Series Specifications

#### Solid Surfaces

Solid surface tops are available on all LOGICmeet occasional tables.

Two standard HBF solid surface colors are available – Alabaster White and Ebony Skies. Other solid surface materials may be specified; contact HBF Customer Service for pricing and lead time information.

Solid surface “Care Kits” are available. One will ship with each order, additional kits are available for \$50 List per kit.

#### Laminates

Plastic laminate tops are offered on all LOGICmeet occasional tables.

The following Pionite® laminates are HBF standard selections:

Pionite laminates are GREENGUARD Indoor Air Quality Certified®

Carnation White Suede	SW806
Eggshell White Suede	SW803
Tawny White Suede	SW812
Ash Gray Suede	SG254
Pumice Suede	SG203
Folkstone Gray Suede	SG241
Stonedust Suede	SG224
Ingot Gray Suede	SG211
Nubian Brown Suede	ST604
Anigre Suede	WX041
Hardrock Maple Suede	WM791

LOGICmeet laminate tables can also be specified in any commercially available laminate. Pricing will be determined by the price of the specified laminate, lead time for the table will be based upon the availability of the laminate material. Contact HBF Customer Service for quote.

The edges of LOGICmeet laminate tables are formed with a 3mm edge band to create an attractive and very durable edge. This edge band material is available in the following HBF standard colors:

Translucent Ivory	Fog
Sail White	Pepperdust
Graphite	Black

If laminate surface is specified please indicate on order both a surface and a edge band color selection.

#### Leather

LOGICmeet laptop tables are available with a leather wrapped top. Leather wrapped tops require 7 square feet of leather. The following HBF Textiles' leather products may be specified for these applications.

<b>Charade</b>	<b>Vis-à-Vis</b>
<b>Faux Real</b>	<b>Vivace</b>
<b>Neither Hide nor Hair</b>	

#### Shelves

Shelves are available for the round LOGICmeet coffee tables and may be specified in the same materials as the top surfaces. Acrylic solid surface material shelves are not available. Shelves must be ordered as a separate style number.

#### Bases

All LOGICmeet bases are metal with a Satin Pewter powder coat finish. Round coffee tables have an X-base, rectangular and boat shaped table tops are affixed to a metal trestle base. Laptop tables are cantilevered; the offset metal base ensures substantial leg space for users.

The standard metal “foot” provides a 17” high coffee table. An optional taller profile foot elevates the table to a 20” height and provides a more comfortable working surface, especially when tables are equipped with the power/data connection option. Casters may also be added to facilitate relocation. Specification of the taller profile foot or casters must be noted on the purchase order by adding the appropriate code to the table style number (see bottom of each page).

---

### LOGICmeet Occasional Table Series Specifications

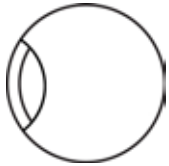

---

#### Cladding

LOGICmeet round tables with a metal X-base may be specified with either wood veneer or a perforated metal cladding. Metal cladding is standard in HBF Satin Pewter powder coat finish. Cladding provides concealment and easy access to wiring. Cladding must be ordered as a separate style number. The open metal base is also available without cladding. Cladding is not available for the rectangular and boat shaped tables.

---

#### Electrical Access Grommet

The round LOGICmeet occasional tables are available with a compact power/data unit with a removable grommet cover. The round grommet is standard in HBF Satin Pewter powder coat finish. Grommet mounts flush with the top surface.

---

#### Power/Data Plate

Round LOGICmeet occasional tables specifying power/data capabilities will be equipped with a power/data unit that provides two (2) 110 volt electrical outlets and two (2) Cat.5E data jacks. This unit may be hardwired (RH1) or is available with a six foot soft cord (RS1) with a grounded plug. Hardwired or softwired selection must be noted on the purchase order by adding the appropriate code to the table style number (see bottom of page for round tables).

The electrical components provided within this group of furniture are engineered and manufactured in compliance with NEC regulation; **however it is the responsibility of the specifier and contracted installer of the furniture to be aware of the local building and electrical restrictions.** Electrical components meet both Chicago and New York electrical codes.

Additional voice/data inserts are available to replace the standard data jacks. These inserts can be ordered from Doug Mockett & Company ([www.mockett.com](http://www.mockett.com)) and installed as required by the end users data specialist to accommodate specific requirements.
