# HBF LOGICwork Casegood Specifications

All HBF casegood orders must be accompanied by suite layout drawings.

Drawings are needed to confirm proper unit configuration.

If drawings are not included, orders may be delayed to confirm specifications.

## Veneer

The following slip matched, plain sliced veneers are available with the finish options as shown below. Pricing for these veneers are shown by veneer grade.

HBF provides a number of light finishes that will not hide or mask the natural characteristics of wood. Due to the natural discoloration of wood substance and color variations in glued up stock, the finish may vary from piece to piece when selecting these finishes. These characteristics are not considered defects and merchandise will not be replaced.

Anigre: Color and grain variations are typical characteristics of anigre veneer. Color may range from light yellow to pale brown, sometimes with a pink tint. The grain pattern of anigre will also vary in frequency and size; grain pattern changes should be expected within a given product or suite of furniture.

## FSC Certification

HBF has been granted Forest Stewardship Council (FSC) Chain-of-Custody Certification (SW-COC-003305) by the SmartWood program of the Rainforest Alliance. This new certification agreement will allow HBF to offer FSC certified wood veneer or core on a project basis to maintain Chain-of-Custody for the design firm and client. FSC Chain-of-Custody certification tracks certified wood from the forest to final production to ensure that responsible forestry practices were maintained at every level and to preserve this natural resource for generations to come. Contact HBF Customer Relations for pricing and lead time information.

## Finish Availability Chart

	Cherry	Veneer Grade 1			Veneer Grade 2		Veneer Grade 3

26 Latte		M*					
27 Honeycomb				•			
28 Nectar		M*					
29 Nutmeg				•			
30 Toffee		M*					

◆ **16 Caramel:** HBF offers this light or natural finish on maple veneer and strives to select the clearest veneer possible when Caramel is specified. Light finishes will not hide or mask the natural characteristics of wood; these characteristics are not considered defects and merchandise will not be replaced. Due to extra processes involved, a 5% Net upcharge will apply for this finish on maple veneer.

**M\* (maple):** These finishes are available only on maple seating and occasional table products and allow the specifier to create a finish that is complementary to non-maple veneers available on conference and casegood products. These finishes are not available on conference or casegood products.

18 Biscotti on maple complements 17 Scone on sapele

26 Latte on maple complements 25 Cocoa on walnut

20 Hazelnut on maple complements 19 Butterscotch on anigre

28 Nectar on maple complements 27 Honeycomb on walnut

22 Cider on maple complements 21 Chai on anigre

30 Toffee on maple complements 29 Nutmeg on walnut

24 Chocolat on maple complements 23 Mocha on rift oak

All conference and casegood products are standard with a 30° sheen.

## Custom Finishes

An upcharge of **10% Net** per unit for conference and casegood products, with a minimum upcharge of **\$500 Net** per order will apply for any custom wood finish.

# HBF LOGICwork Casegood Specifications

---

## Profile Edge Details

---

## Worksurfaces

LOGICwork components have a 1" (25mm) thick worksurface premium grade veneer top faces. Edges are bordered with solids or edgebands.

---

## Melamine

Melamine material is used on various LOGICwork components and is standard in two colors. Nubian Brown was selected to closely match the Satin Bronze metal finish, Fog Grey matches the Satin Pewter finish. The appropriate melamine color will be selected by HBF based on specification of finish for metal components.

---

## Pedestals

Two depths for desks and garages/credenzas/returns.

---

## Doors

Three (3) ply veneer doors are mounted with universal adjustment concealed hinges.

---

## Levelers

All floor casegoods have adjustable levelers.

---

## Modesty Panels

Desks modesty panels are available as finished, fixed panels that overlay the pedestal. Credenza, return back panels and bridge modesty panels are available as finished, fixed panels or as recessed, unfinished back removable access panels.

---

## Drawers in Wood Pedestals

Box and file drawers are 1/2" wood, doweled to form a four (4) sided rectangle with separate drawer front. Drawer bottoms are 1/4" thick and fitted in a dado groove so it is captured on four sides. Drawer faces are mechanically attached to allow for easy alignment. Each desk equipped with a box/box/file pedestal will include one maple divider and one maple pencil tray. Center drawers are optional and include a cherry or maple pencil and paper clip tray, see HBF Casegood Accessories. Center drawers are standard on all LOGICwork table desks.

---

## Suspension in Wood Pedestals

All box drawers are standard with telescopic, full extension, ball-bearing slides. All file drawers are standard with fully progressive, full extension, ball-bearing slides.

---

## Removable Access Panels

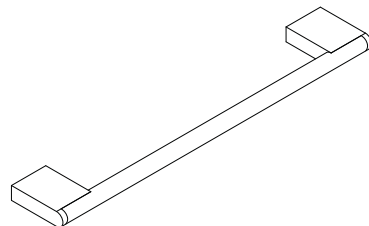

LOGICwork garages, credenzas, returns or bridges without a finished back can be specified with removable access panels in the kneespace. This panel is positioned 4-1/2" from the back of the unit and can be easily removed to allow for complete wall access. When installed, the top of the access panel will be 2 5/8" from the underside of the worksurface to allow for wire or cable egress. The back of this panel and the back of pedestals are unfinished.

LOGICwork credenzas, returns or bridges specified with a finished back will be constructed with a fully finished, fixed modesty panel.

---

## Pull Hardware Options

LOGICwork pulls are available in HBF Satin Nickel finish and are sized to fit appropriately on the door or drawer front.

# HBF LOGICwork Casegood Specifications

## Locks

All wood case pedestals are standard with Satin Nickel face locks. All vertical storage cabinets, overhead cabinets and bookcases with doors are available with optional face locks. These locks will match the pedestal lock. **Add \$100 List** per lock for factory installation. (Locks standard on vertical cabinet file drawers)

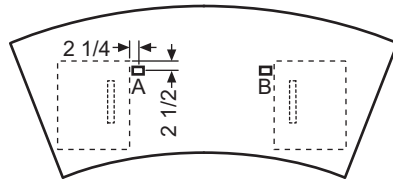

Each individual unit (i.e. desk, credenza, overhead storage unit, etc.) will be keyed alike. If complete offices are required to be keyed alike, this designation must appear on each order. Units will be shipped with the lock barrels and locking mechanisms in place. A separate package will contain the appropriately numbered cylinders for field installations. If no specific lock instructions accompany the order, random keying between complete units will be installed.

## Grommets

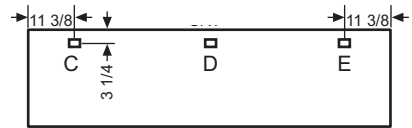

Grommets are optional on all LOGICwork desks, credenzas, returns, bridges, table desks, and desk extensions. **Add \$195 List** for each factory installed grommet. Grommet is available in HBF Satin Pewter and Satin Bronze powder coat finish.

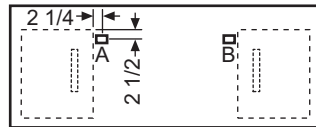

For added convenience, the drawings below should be used to define the placement of each optional grommet location. Please attach a copy to the order.

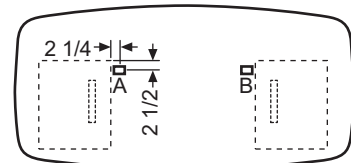

Desk - Arc Top

Credenza, Return, Bridge

Desk - Rectangular Top

Desk - Arched Boat

If standard grommet placement locations do not provide suitable accessibility, a formal drawing of specified grommet location showing exact dimensions must accompany the order. No order specifying non-standard grommet placement will be entered until these drawings are received and approved by HBF.

# HBF LOGICwork

## Specification Process

---

LOGICwork components should be specified in the following order:

1. Garage Structure
2. Garage Worksurfaces
3. Desk Extensions, bridges and returns
4. Garage Components: Filing and storage, removable access panels, end supports, cladding, garage tackpanels
5. Overheads
6. Freestanding units: vertical storage units, bookcases, desks and credenzas
7. Accessories: paper management shelves and trays, power units and task lighting

The following price list pages provide ordering information and pricing for all LOGICwork components.

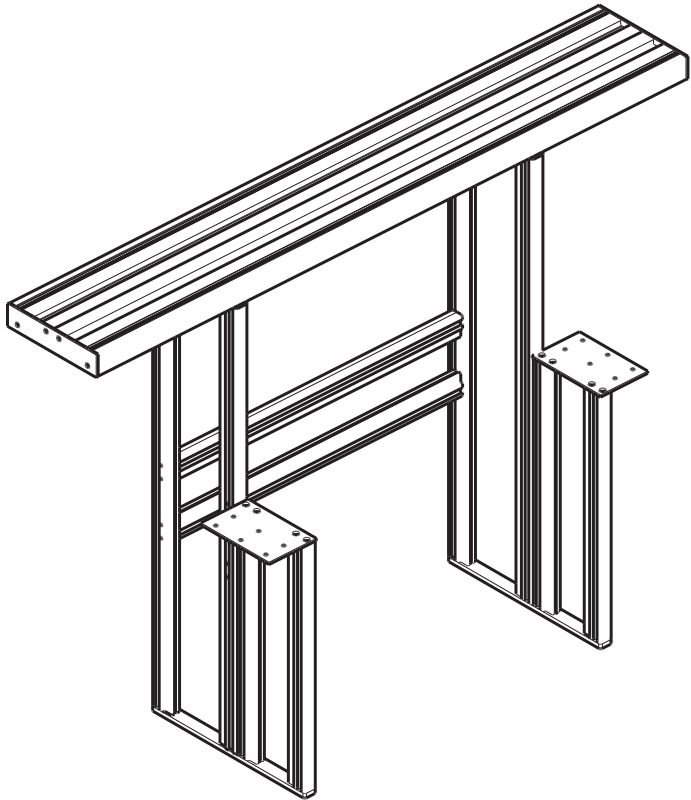

---

# HBF LOGICwork

## Garage Structure

The LOGICwork garage supports other LOGICwork components to create a variety of workwall configurations.

- Eight actual widths: 75", 81", 87", 93", 99", 105", 111", 117"
- Four overhang width dimensions: 0" (no overhang), 18", 30", 36"
- Maximum allowable distance or span between the two vertical supports is 84", minimum is 36"
- Each vertical support column is 1 1/2" wide, actual width of garage will be 3" wider than nominal width. Nominal width is used for garage specification purposes.
- The back of garages and all of its components are unfinished.
- Task lights may only be installed between the two vertical supports of the Garage Structure; refer to minimum opening under Task Lights to determine the style that can be accommodated between the vertical supports.

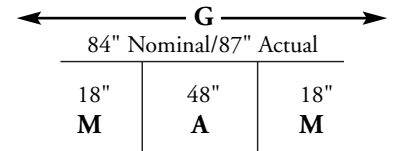

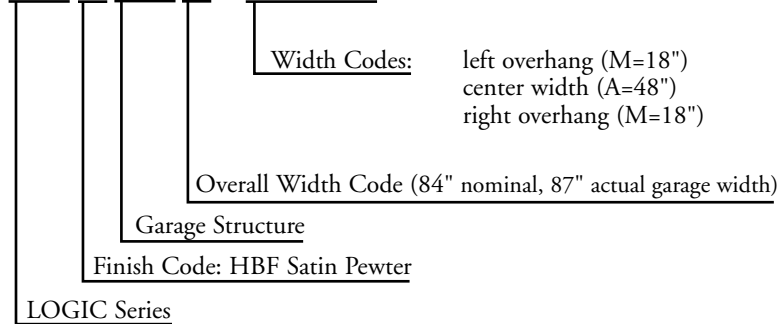

Diagrams below illustrate four overhang options for LOGICwork garages. Garage structures can be created in 87 different configurations by specifying different overall garage widths and different overhang widths. Included with diagrams are the appropriate style numbers for the examples. All configurations have an actual width of 87" and a nominal width of 84".

## Garage Worksurfaces

---

LOGICwork garage worksurfaces are attached to the garage structure and include two recesses/slots to accommodate the garage vertical supports.

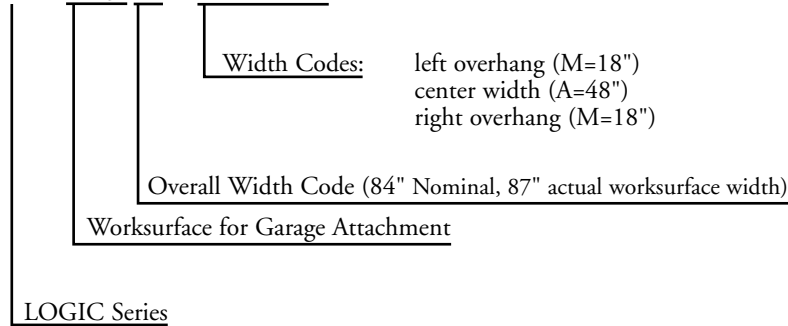

- Garage worksurfaces are available in 12 widths
- Overall depth is 25"
- Actual width of the garage worksurface will be 3" wider than nominal width due to the two 1 1/2" recesses that accommodate the garage vertical supports
- LOGICwork garage worksurfaces will include the appropriate standoffs.

## Returns

- LOGICwork returns attach to garage worksurfaces, freestanding credenzas or single pedestal desks
- Returns are specified by components; worksurface top, removable access panels, end panels and filing/storage units
- Tops are available in 22 different widths
- Pedestals are available in wood or metal with three different drawer front options

### Return Worksurface

Style Numbers:	Description
LG41 (w)	A return worksurface with an edge detail on the user side
LG42 (w)	A return worksurface with edge details on the user side and the unattached end
LG43 (w)	A return worksurface with edge details on the user and visitor sides and the unattached end, this top includes a fixed finished modesty panel

**Veneer:** Veneer species must be noted on each line item

Single high and double high wall mounted overhead cabinets to be used with corresponding height wall mounted vertical cabinets. Proper installation of wall mounted overhead cabinets is the sole responsibility of the customer and is crucial to prevent personal injury.

Due to the depth of door hardware, end doors on LOGICwork overhead units are hinged to open inward in order to prevent damage to adjacent vertical storage units or wall.

## Freestanding Credenzas

- LOGICwork freestanding credenzas are specified by components; tops, storage components, end panels and removable access panels
- Credenza tops are available with edge details on 1,2 3 or 4 sides
- Credenza tops specified with edge details on all 4 sides will also include a fixed, finished modesty panel
- OW shown is nominal width, Add 2-1/2" for each end that has edge detail
- The backs of storage components specified for use with a credenza tops with edge details on 1,2 or 3 sides will be black
- OD shown is nominal width, actual width with edge detail is 24-7/8"

### Credenza Tops

#### Style Numbers: Description

<b>LG 31(w)</b>	Edge detail on the front (user) side. All other edges are flat
<b>LG 32(w)</b>	Edge details on the front side and one end
<b>LG 33(w)</b>	Edge details on the front side and both ends
<b>LG 33(w)L</b>	Edge details on front, back and left edge, includes a fixed, finished modesty panel
<b>LG 33(w)R</b>	Edge details on front, back and right edge, includes a fixed, finished modesty panel
<b>LG 34(w)</b>	Edge details on all four sides, includes a fixed, finished modesty panel
